This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, duplication, disclosure, modification, and adaptation shall be subject to the restrictions and license terms set forth in the applicable Government contract, and, to the extent applicable by the terms of the Government contract, the additional rights set forth in FAR 52.227-19, Commercial Computer Software License (December 2007). Oracle America, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle

Preface

This document, which is part of the Program Documentation under the terms of your Oracle licensing agreement, is intended to help you understand the features, functionality, and options available for Oracle Programs. If you have a question about your licensing needs, please contact your Oracle sales representative, contact the License Management Services representative at <http://www.oracle.com/us/corporate/license-management-services/index.html>, or refer to the resources listed in "Related Documents" below.

Oracle TimesTen In-Memory Database (TimesTen) is available under different licensing options, each suitable for different development and deployment scenarios. Each of the licensing options offers capabilities for specific application requirements. This document provides information on TimesTen product licensing.

Audience

This document is intended for all purchasers of Oracle TimesTen In-Memory Database, Oracle TimesTen In-Memory Database for Exalytics, Oracle TimesTen Application-Tier Database Cache, and Oracle TimesTen Application-Tier Database Cache for Oracle Applications product licenses.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Oracle TimesTen In-Memory Database Licensing Information

Licensing Options

Oracle TimesTen In-Memory Database is available in four licensing options, referencing the TimesTen product components described later in this document:

1. Oracle TimesTen In-Memory Database

The *Oracle TimesTen In-Memory Database* license includes the features provided by the following product components:

- TimesTen Base Functionality
- TimesTen In-Memory Analytics
- TimesTen Replication

2. Oracle TimesTen Application-Tier Database Cache

The *Oracle TimesTen Application-Tier Database Cache* license includes the features provided by the following product components:

- TimesTen Base Functionality
- TimesTen Caching from Oracle Database
- TimesTen Replication

This license requires an Oracle Database Enterprise Edition license for the source database.

3. Oracle TimesTen Application-Tier Database Cache for Oracle Applications

The *TimesTen Application-Tier Database Cache for Oracle Applications* license provides the same set of functionality as that offered by the TimesTen Application-Tier Database Cache product.

This license is available for use only with the Oracle Billing and Revenue Management (BRM) server product.

4. Oracle TimesTen In-Memory Database for Exalytics

The *TimesTen In-Memory Database for Exalytics* license includes the features provided by the following product components:

- TimesTen Base Functionality
- TimesTen In-Memory Analytics
- Integration with Oracle Business Intelligence (OBI) server for in-memory reporting and analysis running on Oracle Exalytics In-Memory Machine

Oracle TimesTen Product Components

TimesTen Base Functionality

- Relational in-memory database with persistence on disk and flash storage
- SQL query processing and transaction processing with ACID properties
- Utilities and built-in procedures for database operations and administration
- Application programming interfaces including JDBC, ODBC, OCI (Oracle Call Interface), ODP.NET, and PL/SQL supporting direct-linked and client/server connections
- SQL Developer support for TimesTen database application development
- TimesTen Plug-in for Oracle Enterprise Manager
- All other functionality not explicitly defined in the sections below

TimesTen In-Memory Analytics:

- In-Memory Columnar Compression
- OLAP Group Operators including Cube, Grouping Set, Rollup
- Star-Join query performance optimizations

TimesTen Replication

- Real-time transactional replication between TimesTen databases
- All replication topologies including Classic Active-Standby, Active-Standby Pair, and Active-Standby Pair with Read-only Subscribers
- Automated failover management of TimesTen databases, processes and applications using Oracle Clusterware.

The use of Oracle Clusterware to manage Active-Standby Pair replication is available without additional licensing cost, provided that the customer has an active Oracle Support agreement for any of the TimesTen product licenses.

TimesTen Caching from Oracle Database

- Caching Oracle Database tables into a TimesTen database with automatic data synchronization between the TimesTen database and the Oracle Database
- Cache Group features and functionality
- Read/write and read-only access with automatic data synchronization for cache tables
- Multi-node Cache Grid features and functionality
