ORACLE
Utilities

Consumers saved the world
25 TWh

with Oracle Utilities Opower Energy Efficiency programs

Which equals...

the power to
top off the charge for
2.2 billion smartphones

the energy gap of flipping
6.7 million
classic lightbulbs to LEDs

the emissions avoided by:

recycling
752 million
bags of trash
(rather than just leaving them
out for the garbage truck)

unplugging
4 coal plants
for a year

skipping
1 billion
gasoline-fueled
grocery runs

the carbon sequestered by planting
290 million seedlings (and letting them grow for a decade)
