Matters regarding the future stated in this document are based on the judgment of the Company as of the day of the submission of this quarterly report.

(1) Analysis of Financial Status

(i) Overview

During the second quarter under review (from Jun 1, 2020 to November 30, 2020, hereinafter “this quarter”), the Company posted 100,246 million yen (up 2.8 % year on year) in revenue, 33,067 million yen (rising 10.0 %) in operating income, 33,022 million yen (gaining 9.9 %) in ordinary income and 22,874 million yen (increasing 10.0 %) in net income.

The Japanese information services industry in which the Company operates enjoyed firm system renewal demand and solid Cloud and IT investment aimed at corporate growth and boosting competitiveness, including investing in mobile solutions, improving efficiency through the use of IoT and other digital data, soaring data volume because of remote working, and strengthening contact points with end users. On the other hand, in some industries which were affected by business performance negatively under COVID19 situation, we still see some slow-down regarding IT spending. In this business environment, the Company is expanding our Cloud business for realizing Customers’ innovation, for their business transformation, and for supporting their firm growth.

As the COVID-19 virus (Coronavirus) was showing up in the end of last fiscal year, the Company recognizes that one of its most important business missions is to protect safety and health of its employees’ and customers’ and to continue its business stably. The Company has shifted promptly to remote working style and pressed ahead with efforts to ensure efficient risk management and to strengthen our sales capabilities continuously.

(ii) Results by Reported Segment

Go to Market Strategy

Our mission is to help people see data in new ways, discover insights, unlock endless possibilities. The Company is aiming for further business growth by supporting our customers’ cloud migration of their core systems and active data utilization with deepen customer-trust, which is based on “Be a TRUSTED TECHNOLOGY ADVISOR”. We have practiced DX (Digital Transformation) with our Cloud Journey to the Cloud by own technology which brought business success to ourselves. By accelerating to deploy and implement our technology to the customers, we support their Cloud Journey to Data-driven DX.

The Company has the comprehensive product portfolio which consists of platform, applications, hardware which can be deployed on cloud environment and on-premise environment. Especially our software license products have been widely adopted in the field of mission critical systems, which have demanded high security, availability and high performance for many years. The Oracle Cloud, which the Company has focused on as a pillar of its new business, has been developed based on the same system architecture and technologies as these software licenses, and the Company enjoys a strength in enabling coordination and bidirectional migration between on-premises systems built with the software licenses products and the Oracle Cloud.

The Company set a slogan “Customer Centric”, in order to accelerate our focus points “Win ERP Cloud”, “Focus on Big Deals” and “Growth Cloud Consumption”. Furthermore the Company also aim to provide the value of “OCI (Oracle Cloud Infrastructure)” which is able to perform extremely at dramatically increased data volume and the most demanding workloads under robust security network. Hereby the Company is expanding to provide its Cloud services, which maximize the value of information by data-driven approaching and supporting services for customers to use Cloud.

In the role of promoting strategy, the Company opened a new datacenter in Osaka region in February 2020, added on the datacenter in Tokyo region opened in May 2019 so that it has built Disaster Recovery service system and has delivered its cloud services corresponding to enterprise workload and security.

In terms of the structure of sales team, it deployed into Cloud and License, and we expand our cloud business by “Team Collaboration”, add value sales with our support and consulting services.

(Glossary)

- Cloud service: Providing software and hardware resources which are used for IT system infrastructure at companies and other organizations as services under agreements for certain periods through the networks such as Internets.
- On-premises: A form of IT system developed and operated as the company’s possession.

[Cloud & License]

Revenue in the Cloud & license segment was 81,437 million yen, up 3.7% from the corresponding period of the previous fiscal year and Operating income was 32,829 million yen, gaining 8.6%. Revenue in the Cloud license & on-premise license was 20,521 million yen (increasing 0.4 % year on year), revenue in the Cloud services & license support was 60,915 million yen (increasing 4.9 % year on year).

This segment consists of the “Cloud license & on-premise license” that the Company sells software licenses for database management software, a range of middleware, and ERP and other business applications, etc., the “License support” that the Company provides software updates and technical support for customers using the Company’s software licenses, and the “Cloud services” are services the Company provides the resources of software and hardware via the Internet.

We see solid demands from customers in variety of industry. The Company has developed its strength of products and services to its Customers. The Company continues to close a good mix of small and large deals indicating a steady business scenario. In terms of Partner business side, we are expanding our cooperative ties of alliance and creating new demands on SME market segment.

Concerning the Cloud services, including “Oracle Cloud Infrastructure (OCI)”, there is a lot of demands from customers putting a weight on performance, security and cost effectiveness, furthermore one of the most important strategy “ERP upgrade” (from On-premise to Cloud services) has been deployed to mainly its enterprise Customers. That has led to the usage of our Tokyo region data center opened in May this year is successfully increasing continuously across all of segment significantly with expansion its Gen-2 Cloud datacenter.

Also we have been keeping the high renewal rate of license support contracts and the attach rate for the Cloud license and on-premise license.

[Hardware systems]

Revenue in the Hardware systems segment was 8,142 million yen, down 3.2 % from the corresponding period of the previous fiscal year, Operating income was 346 million yen, decreasing 12.0%.

This segment consists of the Hardware systems product division which sells servers, storage, engineered systems and network devices, and provides operating systems and related software, and the Hardware systems support division which provides technical support for hardware products, maintenance and repair services and updated versions of related software including operating systems.

The Company released “Oracle Exadata Database Machine X8M” combines Intel® Optane™ DC persistent memory, and the inquiry for this machine is strong. Exadata X8M removes storage bottlenecks and dramatically increase performance for the most demanding workloads such as Online Transaction Processing (OLTP), analytics, IoT, fraud detection, and high frequency trading.

[Services]

Revenue in the Services segment was 10,666 million yen, gaining 0.8 % from the corresponding period of the previous fiscal year, Operating income was 2,226 million yen, up 28.6%. This segment consists of Consulting Services, which support the introduction of products of the Company; Advanced Customer Support Services, which provide a preventive maintenance service and a comprehensive operation management service for customers’ IT environments; and Education services, which provide training for engineers and users, and also encompasses a technology qualification business.

In Services segment, the number of composite projects from Consulting Services taking advantage of the Company’s comprehensive product and service portfolio has increased steadily. They include projects for platform transition from the on-premise environment to the IaaS and PaaS environment and those for linkage with SaaS solutions such as the ERP cloud.

Notes to Quarterly Financial Statements

(Notes to Going Concern): Not Applicable

(Special accounting for preparing quarterly financial statements)

(Tax expense calculation)

Tax expenses on profit before income taxes for the six months under review are calculated by multiplying profit before income taxes for the six months under review by the reasonably estimated effective tax rate for the fiscal year including the second quarter under review after applying tax effect accounting.

Income taxes-deferred are included in income taxes.

(Additional Information)

The Company makes accounting estimates (evaluation of recoverability of deferred tax assets, consideration of impairment accounting for fixed assets, etc.) based on the assumption that the business impact will continue to a certain extent within 2020. However, given that the timing of convergence is still uncertain, so we have changed our assumption that the impact on our business will continue to a certain extent throughout the current fiscal year.

Based on the assumption, the Company makes accounting estimates (evaluation of recoverability of deferred tax assets, consideration of impairment accounting for fixed assets, etc.), and the impact of this change on our business performance and financial position is immaterial at this time.

Designated and Engagement Partner
Hisafumi Nomoto, Certified Public Accountant

Designated and Engagement Partner
Atsuko Tanabe, Certified Public Accountant

<Auditor's conclusion>

Pursuant to the provisions of Article 193-2, Paragraph 1 of the Financial Instruments and Exchange Act, we have conducted a quarterly review of the quarterly financial statements of Oracle Corporation Japan listed in the "Status of Accounting" for the second quarter of 36th term commencing on June 1, 2020, and ending on May 31, 2021 (from June 1, 2020 to November 30, 2020) and the cumulative second quarter (from June 1, 2020 to November 30, 2020), which comprise the balance sheet, income statement, cash flows and notes.

In our quarterly review, no matter has come to our attention that causes us to believe that the above quarterly financial statements do not fairly present, in any material respect, the financial condition of Oracle Corporation Japan as of November 30, 2020 and the results of its operations and the status cash flows in the cumulative second quarter ended November 30, 2020 in accordance with the standards for preparation of quarterly financial statements generally accepted in Japan.

<Basis for the auditor's conclusion>

We conducted a quarterly review in accordance with the quarterly review standards generally accepted in Japan. Our responsibility under the quarterly review standards is described in "Responsibilities of Auditor in Quarterly Review of Quarterly Financial Statements". We are independent of the company and fulfill our other ethical responsibilities as an auditor in accordance with the provisions of professional ethics in Japan. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

<Responsibilities of management and audit committee for the quarterly financial statements>

Management is responsible for the preparation and fair presentation of the quarterly financial statements in accordance with the accounting standards generally accepted in Japan. This responsibility includes development and operation of such internal control as management determines necessary to enable the preparation and fair presentation of the quarterly financial statements that is free from material misstatement, whether due to fraud or error.

In preparing the quarterly financial statements, the management evaluates whether it is appropriate to prepare the quarterly financial statements based on the premise of a going concern, and uses the criteria for preparing the quarterly financial statements generally accepted in Japan. If it is necessary to disclose matters concerning a going concern based on this, it is responsible for disclosing such matters.

The responsibility of the audit committee is to monitor the execution of duties by the executive officers and the directors in the development and operation of the financial reporting process.

<Responsibilities of Auditor in Quarterly Review of Quarterly Financial Statements>

The auditor's responsibility is to express conclusions on the quarterly financial statements from an independent standpoint in the quarterly review report, based on the quarterly review conducted by the auditor.

(Translation purposes only)

The auditor will make professional judgments throughout the quarterly review process in accordance with the quarterly review standards generally accepted in Japan, and will carry out the following with professional skepticism.

- Conduct questions, analytical procedures and other quarterly review procedures mainly for management, persons responsible for financial and accounting matters, etc. The quarterly review procedure is a more limited procedure than the audit of financial statements for the fiscal year conducted in accordance with auditing standards generally accepted in Japan.
- If we determine that there is material uncertainty regarding an event or situation that raises material doubts regarding the going concern assumption, we conclude whether there are no items to believe that it is not properly presented based on the evidence obtained in the quarterly financial statements in accordance with the standards for preparing quarterly financial statements that are generally accepted in Japan. In addition, if significant uncertainties regarding the going concern assumption are found, the quarterly financial statement notes may be noted in the quarterly review report. Or, if the notes in the quarterly financial statements regarding material uncertainties are not appropriate, it is required to express limited or negative conclusions in the quarterly financial statements. The auditor's conclusions are based on evidence obtained by the quarterly review report date, but future events and circumstances may prevent the company from surviving as a going concern.
- Evaluate whether there are no items to believe that the presentation and notes of the quarterly financial statements do not comply with the standards for preparing quarterly financial statements that are generally accepted in Japan. Also, evaluate whether there are no items to believe that the presentation, composition, content of the quarterly financial statements, including relevant notes, and the quarterly financial statements do not properly represent the underlying transactions or accounting events.

The auditor reports to the audit committee on the scope and timing of the planned quarterly review and important findings in the quarterly review.

The auditor reports to the audit committee on compliance with Japan's professional ethics regulations regarding independence, matters that are reasonably considered to affect the independence of the auditor, and the content of safeguards, if any, taken in order to eliminate or reduce the obstacles.

<Interests>

There exists no special interests between the Company and this audit corporation or its engagement partners which is required to be stated pursuant to the provisions of the Certified Public Accountants Act.
