

ETRO

Mobile POS to elevate the in-store customer experience

Founded in Milan in 1968, ETRO is a lifestyle luxury brand with approximately 140 flagship stores in over 58 countries across Europe, the US, the Middle East, and Asia Pacific. The high-quality designer products are distributed by an attentive wholesale selection of leading department stores, multi-brand boutiques, e-tailers, and its directly operated ecommerce.

The Italian brand selected the [Oracle Retail cloud platform](#) to offer a luxury in-store shopping experience, including mobile [Oracle Retail Xstore Point of Service](#) systems and [Oracle Retail Xoffice Cloud Service](#).

With the solutions, ETRO client advisors can focus on curating the right combination of items with a personalized selling approach for each customer across the company's stores.

ETRO

The ETRO boutiques offer women's and men's ready-to-wear fashion clothing and accessories, home goods, and perfume collections in elite shopping districts like Milan, London, Paris, New York, Beijing, and Tokyo. Customer service and experience can differentiate the ETRO brand.

After evaluating several options, ETRO chose Oracle as a partner to deliver new mobile experiences to its customers. Oracle also provides a platform that the retailer can leverage to support growth and achieve business goals.

The technology allows the team to replicate its in-store experiences at scale so that customers get the same ETRO-level service no matter where they shop.

With the Oracle Retail systems, ETRO will be able to quickly stand-up new stores with a consistent, proven approach while creating flexibility to experiment with exciting new concepts.

For example, ETRO could add a mobile activation to pop-up experiences like Wonderland of Etropia. ETRO's first project under Marco De Vincenzo's artistic director started in September and culminated with a series of activations worldwide, including a pop-up and pop-in stores.
