Demo Assets Available (1)

USE CASE	DETAILS	PRODUCTS
Analysis and Prediction of Student Admissions	This project shows admissions/enrollments for various Departments in a University over a period of time. Analysis are done to see how the enrollments are happening and how to predict the future enrollments/admissions for the next 3 years.	Oracle Database + Options Oracle Analytics Server
Student Performance Analysis and Prediction	This Project shows the behavior and performance of students in a University. It deals with different nationality, stages and subjects, and further drills down to see that a student's University satisfaction is linked to his/her own performance. Overall, it provides the analysis of a University and the likelihood of a student dropping the semester, thus helping guide the staff and the students better.	Oracle Database + Options Oracle Analytics Server
University Student Certificate - Integration between Blockchain	Storing Student Certificates in Blockchain and ensuring tamper proof access by any entity that needs to view the certificates	Oracle Blockchain, Oracle Analytics Server
