
The Oracle E-Business Suite R12: E-Business Essentials (1Z0-204) Exam Study Guide is designed to provide students with the training information meant to help them pass the Oracle E-Business Suite R12: E-Business Essentials (1Z0-204).

Please note this exam targets intermediate-level implementation consultant. It is highly recommended that individuals planning to take the exam have attended current release level training or done extensive current release level self-study and possess strong field experience. The typical target audience for this type of exam is a functional consultant with two or more years of experience implementing the Oracle E-Business Suite product and has participated in two or more full implementation cycle.

The exam objectives are defined by learner or practitioner level of knowledge.

Learner-level: questions require the candidate to recall information to derive the correct answer

Practitioner-level: questions require the candidate to derive the correct answer from an application of their knowledge, which can only be attained by extensive experience with the product.

For each exam topic there have been identified alternative training options that are available at Oracle. Please note that some of the training recommended can cover multiple exam topics.

The exam covers 8 topics.

Topic 1: Navigating in R12 Oracle Applications

<table>
<thead>
