

Product Tracking and Serialization with Intelligent Track and Trace

Large satellite telecommunications provider addresses logistics complexities for set-top box servicing.

TRACK AND TRACE

Track returns of equipment from end customers through warehouses, contracted manufacturers, and customer service centers.

SERIALIZATION

Track specific item location down to the serial number.

CONNECT

Ingest data from multiple heterogeneous applications (Oracle and 3rd party) for multitier visibility and efficiencies.

In a recent study, 87% of respondents using blockchain say ROI exceeded expectations and 75% agree that intelligent automation (e.g. smart contracts) is the key to keeping pace with regulatory compliance.
