

ORACLE IS THE **INFORMATION** COMPANY

Oracle's Independent Users Group Community

Oracle is committed to fostering strong and independent users groups worldwide. Our 420 affiliated users group communities – now 225,000 members strong – provide dynamic forums for like-minded customers to share information, experiences and expertise. Read below for information about Oracle's umbrella users groups and how to contact them

Technology

For the Complete Technology & Database Professional

Independent Oracle Users Group (IOUG)

The premier education, information and networking group for technology and database professionals.

The IOUG represents the voice of Oracle technology and database professionals – serving more than 20,000 database administrators, developers, architects, technical managers and other Oracle technology professionals throughout North America and worldwide. Since 1993, the IOUG has empowered its members to be more productive and successful in their businesses and careers by delivering education, sharing best practices and providing technology direction and networking opportunities. www.ioug.org.

Applications

Oracle Applications Users Group (OAUG)

Enhancing the capabilities of real Oracle users in their day-to-day use and management of the growing family of Oracle applications.

Formed in 1990, the OAUG is one of the software industry's most successful users groups – enhancing customers' return on investment through education, professional development, and influence over Oracle product strategy. The OAUG provides its members with access to a global knowledgebase of solutions and offers unique networking opportunities within a global users community and with Oracle. www.oaug.org | Email: <mailto:membership@oaug.com>.

ORACLE HCM USERS GROUP

Oracle HCM Users Group (OHUG)

Providing communications, networking, and education forums for users of Oracle HCM applications.

OHUG is devoted exclusively to providing users with valuable insight into Oracle Human Capital Management applications. OHUG members benefit from in-depth training sessions hosted by industry experts, along with opportunities to share their experiences and best practices with colleagues implementing and using Oracle HCM. OHUG also enables users to interface directly with Oracle (executives, product managers, and Development) and gain first hand knowledge about new functionality – ultimately influencing the future direction of the entire Oracle HCM product suite. www.ohug.org.

Quest International Users Group

Quest is the premier communications, networking, and education forum for users of Oracle's PeopleSoft, JD Edwards and Oracle Utilities applications.

Quest is a global, not-for-profit association focused on PeopleSoft, JD Edwards and Oracle Utilities applications users. Its worldwide community is more than 50,000 strong, and includes more than 75 affiliated users groups. Quest is a catalyst to maximize members' business investments through the power of community, tools, and experiences. Quest members benefit from a unified voice into Oracle and our timely, unbiased information and numerous networking opportunities. www.questdirect.org.

Tools

Oracle Development Tools User Group (ODTUG)

Networking, communication, education, and support for all Oracle Database developers.

ODTUG is an independent, global, non-profit organization that provides education, support, advocacy, and networking opportunities to Oracle Database developers using a variety of technologies. ODTUG's 18,000-plus members design applications, model data, write code, manage application systems, maintain legacy code, and are key to the middle-tier technology in Oracle Fusion. ODTUG is the only users group *for developers by developers*. www.odtug.com.

Industry

Higher Education User Group (HEUG)

Representing higher education institutions using PeopleSoft and Oracle products.

The HEUG is a non-profit corporation representing more than 16,000 members from more than 700 organizations in over 20 countries. The HEUG provides forums for sharing information and experience among higher education customers on the selection, implementation and use of PeopleSoft Enterprise and Oracle E-Business Suite products. Using its Technical Advisory Group and its Product Advisory Groups, the HEUG provides input to Oracle across the entire product line. www.heug.org.

Regional

Asia Pacific Oracle UserGroup Community

Promoting the interests of affiliated Oracle users groups within the Asia Pacific region.

The Asia Pacific Oracle UserGroup Community (APOUC) is a voluntary group that helps support effective communication between regional users groups and into relevant points within Oracle. The APOUC provides an organized community to help groups identify each other and to help combine opinions, experiences and activities. www.apouc.org.

Europe, Middle East and Africa Oracle Usergroup Community

Promoting interaction and communication among the Oracle users group community in Europe, the Middle East and Africa (EMEA).

The EOUC is a collective body, which was formed to represent all users groups that operate within the EMEA region. The EOUC acts as a coordinated whole to achieve the collective aims of the members of the larger community. www.eouc.org.
