

Oracle Payroll for India

Oracle Payroll, an integral part of Oracle Fusion Cloud Human Capital Management, is a fully unified solution that enables you to comply and configure your payroll across the globe regardless of the industry, company size, or worker types. Oracle Payroll helps you simplify and automate your complex business processes with scalability, flexibility, and efficiency.

Work more efficiently

Redesign the way you work with automated **Payroll Workflows** and **Dashboards** that help you define important tasks and steps to confirm accurate processing of your payroll. Oracle delivers intelligent features to make your processes more efficient. The **RetroPay** feature provides an easy solution for post period adjustments to employees' earnings and deductions based on pay rate changes, and benefit elections, so you can rest assured that your employees get paid what they're owed—no matter when the event occurs. Then there's also the full integration with HCM Data Loaders (HDL/HSDL) to streamline mass loads and updates. These features and many more simplify the overall payroll process and boost your productivity.

Get control over your business

Many organizations struggle with analyzing payroll information across multiple systems. It's time consuming, and when data is finally pulled together, it's typically outdated. Oracle provides pre-built and customizable analytics that provides readily accessible enterprise-wide data in real-time. It's an easy-to-use tool designed specifically for you to quickly analyze your payroll business. Armed with more insight into your workforce operations, your teams are better positioned to make quick and informed decisions that drive a greater value to your business.

Oracle Payroll for India

Oracle payroll for India is natively built for the cloud and designed to enable organizations paying employees in India to efficiently process a high quality, accurate, and timely payroll. Oracle streamlines the payroll process and provides better alignment across HR, Finance, and Operations. With everyone on the same page, organizations will be more efficient with more time to focus on improving the employee experience and focus on higher value activities that support the organizations goals and objectives. Key features for India include:

“Customers saw improvements in payroll processing (time) by an average of 56%, driving efficiency and accuracy...”

2020 Oracle Cloud HCM Benchmark Study
