Why OPERA Cloud Property Management?

Exceptional guest experiences
Create unique guest profiles to deliver one-of-a-kind personalized experiences and win customer loyalty.

Flexible mobile capabilities
Untether staff from the front desk to serve guests anywhere, anytime — and transform housekeeping and maintenance operations with real-time updates.

Faster innovation
Capitalize on the power of cloud — with its centralized control and continuous updates — to accelerate innovation and set up new properties faster.

Greater occupancy and revenue
Manage room inventory and pricing across distribution channels with real-time data and improved visibility to seize revenue opportunities.

IT simplicity and lower costs
Eliminate the need for on premise servers, local maintenance and software upgrades by shifting IT "above the property."

Improved operational efficiency
Standardize operations and streamline collaboration across departments with a centralized cloud platform.

Greater productivity
Rely on Oracle certified personnel to resolve IT issues and let staff focus on what matters most — taking care of guests.

True partnership
Tap into the expertise and unmatched R&D resources of Oracle Hospitality, combining Oracle's hardware and software innovations and MICROS' over 40 years of industry leadership.

Global platform
Customize operations with 20 different languages and meet fiscal compliance requirements in more than over 200 countries

Enhanced security
Gain peace of mind with multilayer security, protecting data, transactions, application and infrastructure – and compliance with payment and data privacy standards.
