

Oracle's Primavera Cloud Planning

Oracle Construction and Engineering Professional Services offers consulting services that focus on successful implementation of Oracle's Primavera Cloud Applications. The Primavera Cloud Planning package leverages best practices to determine the cloud readiness of existing and potential customers for key areas such as strategy and organization, business processes and technology. It provides recommendations and roadmap scenarios to shift to the Oracle Primavera Cloud Service subscription model.

ORACLE CONSTRUCTION AND ENGINEERING PROFESSIONAL SERVICES OVERVIEW

The Oracle Construction and Engineering Professional Services team is the largest Primavera service organization globally, with a dedicated team of highly skilled consultants experienced in Primavera Cloud applications. Construction and Engineering Professional Services, working with the Oracle Construction and Engineering's Primavera Development and Cloud Delivery team facilitate full Primavera Cloud readiness in the field, delivering successful implementations of our cloud applications for our customers. Oracle Construction and Engineering Professional Services experts help drive your organization's project to success and accelerate time-to-value by providing a streamlined methodology and approach. By leveraging the team's deep knowledge in Primavera products, we can assist your organization with rapid decision-making as we guide you through the deployment process.

ORACLE'S PRIMAVERA CLOUD PLANNING SERVICE

The Primavera Cloud Planning Service is intended for both existing and new customers looking to Primavera Cloud Services, and who want to know:

- The readiness of their organization and fit for their business processes
- The technology fit and/or migration from their existing on-premise/hosted IT landscape to Oracle Cloud services
- The Oracle recommended approach for their migration

Migrate with Primavera Experts

- **Leading Experience:** Oracle's own experienced consultants providing thought leadership for every Primavera solution
- **Broad Coverage:** "End-to-end" lifecycle services across the entire Primavera product footprint
- **Global Scale:** 100+ Primavera dedicated consultants. With OCS, 17,000 Oracle consultants in 145 countries, serving over 20 million users.
- **Unified Methodology:** Based on industry standards, high-quality results across complex projects
- **Flexible Delivery:** Onsite, offsite, and offshore, along with innovative solutions.

ORACLE CLOUD READINESS

Based on our cloud readiness interviews with key stakeholders during an onsite engagement, Oracle experts will determine your readiness and ability to adopt the Primavera Cloud Service applications.

FIT/GAP ANALYSIS

The Primavera Cloud Planning Service will provide a high-level fit-gap analysis of your key business processes and the cloud functionality currently available. This analysis will highlight which consulting offerings will give you a quick competitive advantage and what cloud functionality can improve your current capabilities.

SHIFTING TO PRIMAVERA CLOUD APPLICATIONS

Our experts will discover any potential implications for your organization in shifting to Oracle cloud applications. As part of this preview, a high-level future-state business architecture and recommended roadmap will be delivered. This roadmap will consist of the stepping stones, the potential co-existence scenarios, and an indicative approach and timeline. Oracle Construction and Engineering Professional Services will also address the main benefits to your organization of moving to Oracle Primavera Cloud applications and the next steps for Cloud Planning and adoption.

CUSTOMER PARTICIPATION

The participation of the customer is essential; we require a project manager from your organization who will act as a single point of contact, manage all internal communication, and assist with project logistics.

In addition, a selected number of key stakeholders from both business and IT will be required to attend one hour interview sessions to provide background information.

KEY ASSUMPTIONS

The Primavera Cloud Planning package is based on the following key assumptions:

- Analysis of the customer's system and processes will be conducted via interviews and high-level documentation
- Key stakeholders will be available for one-hour interviews during the week of the cloud readiness exploration taking place
- The customer will assign a project manager to coordinate the week's activities and availability of staff
- Customer will provide project work rooms and facilities
- Travel expenses are invoiced as incurred

Key Benefits

- Rapid migration, upgrade, design, configuration, and deployment
- Reduced costs
- Accelerated timelines
- Upgraded Primavera applications
- Risk mitigation

Related Services
