

Oracle Consulting Architecture Blueprint and Roadmap for Information Architecture and Oracle Big Data

Do you have confidence in your data? Do you have access to accurate, complete and timely information to support regular, ad-hoc and complex reporting for both external and internal stakeholders? Oracle Consulting has helped businesses build confidence in their data and leverage it as a key asset and enabler to achieve the business vision and strategy. We help businesses innovate to achieve more with accurate, complete and accessible information.

KEY FEATURES

- Alignment of Enterprise Information Architecture with business goals.
- Information Architecture reflecting unique needs.
- Actionable roadmap for your Information Architecture.
- Recommendations for data governance strategy.
- Leverages Oracle Enterprise Architecture Framework to enable business and IT alignment.

KEY BENEFITS

- Improve data reliability to drive more accurate decision making.
- Timely access to accurate and complete information for key stakeholders.
- Maximize business value of your information assets.
- Establish Information Architecture standards and data governance with alignment across enterprise.
- Integrate Big Data capabilities as extension of your Information Architecture.

Thought Leadership in Information Management

Oracle Consulting Architecture Blueprint and Roadmap for Information Architecture and Oracle Big Data is led by Oracle's Enterprise Architects who have a long track record in developing enterprise-wide Information Architecture strategies and governance. They leverage a practical enterprise architecture approach, driven by business strategy, and use Oracle Best Practice architectural principles, along with proven reference architectures, to accelerate the process.

This service will help you develop an Information Architecture strategy, along with a roadmap and governance strategy to rationalize, manage, share and secure data and information assets across your enterprise in support of your Information Architecture strategic initiative.

Key Deliverables include:

- Joint execution plan that defines the business goals and focus areas for your Information Architecture strategy
- Capabilities-centric architecture vision, guiding principles and standards for your Information Architecture initiative
- Information reference architecture tailored to your enterprise and aligned with your business strategy
- Actionable roadmap for your Information Architecture initiative with transitional next steps
- Oracle Best Practices and recommendations for your data governance strategy
