- Recommendations about multiple paths Customer can take to adopt Oracle Cloud Applications

## KEY BENEFITS

- In-depth understanding and overview to support your journey to the Cloud
- Detailed fit and roadmap to optimized Cloud landscape
- A comprehensive high level plan for your organization and work for detailed implementation as a follow up activity

*Oracle Consulting offers a number of services that focus on successful implementation of Oracle's Cloud Applications. Oracle Cloud Roadmap for Oracle Applications leverages best practices processes and solution expertise to provide optimized strategies to accelerate your organization's move to the Cloud through a process of guidance, planning and staging or Oracle Cloud GPS.*

## Oracle Consulting Overview

Oracle Consulting is the largest Cloud service organization with a dedicated and extended near shore/off shore team of highly-skilled Oracle consultants experienced in Oracle Cloud Applications. These dedicated teams are focused on Oracle Cloud Applications such as Oracle Fusion, Oracle Taleo, Oracle CRM OnDemand, Oracle RightNow, and Oracle Social Relationship Management to serve customers.

Oracle Consulting has been working closely with Oracle Development and Oracle Product Marketing over the last few years to ensure full Oracle Cloud readiness in the field, delivering successful implementations of our Oracle Cloud applications to our customers.

## Oracle Cloud Roadmap for Oracle Applications

The Oracle Cloud Roadmap for Oracle Applications moves organization's through a process of guidance, planning and staging (Oracle Cloud GPS). This Oracle Cloud GPS effort will enable the journey to the Cloud by reviewing your organization's business processes in scope and provide recommendations about the multiple paths you can take to adopt Oracle Cloud Applications.

The Oracle Consulting team will work with you to:

- Define scope and plan by going through a detailed review of the processes, systems, and integrations
- Understand vision and goals by conducting workshops and one-on-one conversations with key stakeholders to gain visibility into business alignment.
- Assess current state by assessing documentation provided by the customer
- Define improvement opportunities within current solution deployment
- Define value and recommended Cloud adoption aligned to your organization's business needs and technology readiness
- Communicate and plan for next steps to help you migrate to the Cloud

## Deliverables

As part of this offering, Oracle Consulting will provide the following deliverables:

### **Confirmed Business Objectives**

This document will contain:

- A clear understanding of the business benefits that should be achieved
- Agreed upon and signed-off business objectives among all relevant stakeholders
- Ensure business objectives can be cross referenced from any other Cloud GPS deliverables

### **Target Cloud GPS Deliverable**

The Target Cloud GPS Deliverable will identify and document each functional process in scope and their mapping to the respective Oracle Cloud Applications.

- A high level recommendation for target Cloud Applications adoption
- A phased approach for the transition including stepping stones and potential co-existence scenarios
- A comprehensive high level plan and recommendations for your organization
- Definition of main risks including priority and mitigation
- Recommendations about workshops and detailed implementation as a follow up activity

## Approach

Oracle Cloud Roadmap for Oracle Applications is available as a free service to qualifying customers. In addition to providing the insight above, Oracle Consulting can also provide you with estimates for any follow up work recommended. Typically the package will be delivered in a mixed onsite/off-shore way for discovery, documentation and review/revision before obtaining your sign-off.

## Customer Participation

Your participation in this process is essential; we require a Project Manager from your organization who will act as a single point of contact, manage all internal communication, and assist with the logistics.

Additionally, access to key stakeholders from both the Business and IT is necessary to provide further in-depth information when needed. Typically, these questions/requests will be bundled and channeled via the Project Manager.

## Key Assumptions

The Oracle Cloud Roadmap for Oracle Applications engagement is based on the following key assumptions:

- The Cloud GPS approach is time-boxed and agreed upon with you before initiating
- Documentation on current business processes is available before the engagement is started
- Your key stakeholders will be available to providing further information on your system, processes, and any specific requirements
- You will assign a Project Manager to coordinate the week's activities and availability of staff
- You will provide project work rooms and facilities (furnishings/equipment/internet access)

## How We Are Different

The Oracle Consulting team, which is made up of local and offshore resources, is focused exclusively on Oracle Technologies, and we have the experts that others turn to for leading practices in Oracle hardware and software implementations. We know how to best optimize your investment in Oracle products and can provide your business with tightly integrated, comprehensive, superior services throughout your ownership experience.

## Getting Started

Leverage Oracle's methods, tools, and extensive experience with customer implementations across diverse industries and geographies. Tight integration across Consulting, Development, Support, Education, and Global Delivery puts the entire Oracle team behind your success.
