

# Oracle Consulting Advisory for Oracle Enterprise Security

*Data breaches are on the rise and are costly to your business in terms of negative impact to reputation and the millions of dollars it can cost to address a breach. Ensuring the right people have access to the right data and applications is critical to your business. Development of an identity management roadmap gives you confidence that your identity management strategy puts you on the path to securing access to your data and applications along with meeting regulatory requirements while enabling your organization to address emerging opportunities.*

*Oracle Consulting Advisory for Oracle Enterprise Security is designed to help reduce your identity management risk and meet standards mandated by Sarbanes-Oxley (SOX), Payment Card Industry (PCI) Data Security Standard (DSS), and Health Insurance Portability and Accountability Act (HIPAA).*

## KEY FEATURES

- Workshops focused on understanding your unique needs
- Align your identity management security strategy with your business goals
- Quick, cost-effective way of planning your identity management implementation
- Knowledge sharing with your experts so they can manage your identity management initiatives

## KEY BENEFITS

- Leverages Oracle expertise to define your identity management strategy
- Proven best practices to Plan, Build and Run your identity management infrastructure
- Gets your team started on the right path to implementing identity management initiatives

## A Business-Driven, Practical Approach to a Secure Enterprise

Oracle Consulting Advisory for Oracle Enterprise Security is the first step to implementing an identity management security strategy. We collaborate with you to develop a practical plan, aligned with your business goals, with recommendations to address identified risks. Oracle Identity Management Experts will work with your organization through a series of workshops to understand your identity management business goals, review your identity management strategy, and evaluate your current identity management infrastructure. These Experts will identify opportunities for you to better leverage Oracle Identity Management Best Practices to mitigate identified risks. Our service positions your IT organization for a successful identity management infrastructure utilizing our proven methodologies, tools and best practices.

### Key Deliverables include:

- Workshops to understand your identity management goals, strategy and regulatory compliance requirements
- Review of your current identity management infrastructure
- A phased based roadmap that includes:
  - An identity management, capabilities-centric, architecture aligned with your identity management governance
  - Identified risks, assumptions and recommendations, based on Oracle Best Practices, for your identity management initiatives
