Oracle Premier Support for Software

Investing in Oracle Support helps improve your business innovation and provides you with important support and security updates for your Oracle products. Businesses around the world continue to rely on Oracle as their trusted support provider of outstanding protection for vital business interests.

Only Oracle can deliver security enhancements to the Oracle software and provide comprehensive protection against new hacking threats.

WHY ORACLE SUPPORT?

- **Innovation.** Oracle Premier Support entitles you to software enhancements and updates as the result of Oracle’s multi-billion dollar annual investment in R&D. We can also help protect your solution over the long term with lifetime support.
- **Powerful proactive support tools.** Our unique tools for preventive maintenance, accelerated problem resolution, knowledge sharing, and guided lifecycle advice provide a new level of value by leveraging technology to deliver outcomes far superior to traditional IT support.
- **Integrated service.** Whether you are running a combination of Oracle software products or a complete Oracle hardware/software stack, you can count on integrated support and product updates with a single point of accountability and consistent service worldwide.

“Oracle Premier Support’s international footprint is important. When you work severity 1 incidents with Oracle Support, engineers engage and work continues around the clock—until they resolve the issue. Other providers can’t handle that level of support.”
