

# Oracle Premier Support for Software

Investing in Oracle Support helps improve your business innovation and provides you with important support and security updates for your Oracle products. Businesses around the world continue to rely on Oracle as their trusted support provider of outstanding protection for vital business interests.

Only Oracle can deliver security enhancements to Oracle software and provide comprehensive protection against new hacking threats.

## WHY ORACLE SUPPORT?

- **Innovation.** Oracle Premier Support entitles you to software enhancements and updates as the result of Oracle's investment of more than US\$80B in R&D since FY2012. We can also help protect your solution over the long term with lifetime support.
- **Powerful proactive support tools.** Our unique tools for preventive maintenance, accelerated problem resolution, knowledge sharing, and guided lifecycle advice provide a new level of value by leveraging technology to deliver outcomes far superior to traditional IT support.
- **Integrated service.** Whether you are running a combination of Oracle software products or a complete Oracle hardware/software stack, you can count on integrated support and product updates with a single point of accountability and consistent service worldwide.

### Trusted

- Oracle's solid business reputation is built on more than 40 years of providing award-winning service to customers globally to help ensure their technology investments are effective, efficient, risk-resistant, and competitive.
- Oracle helps to protect your Oracle investment, using rigorously tested updates, innovative upgrades, and security patches.
- More than 430,000 customers choose Oracle, and rely on Oracle Support, to protect their technology investment.

### Secure

- Security features at every layer of the software stack.
- Security patching is essential and is standard operating practice—Oracle has the tools, owns the source code, and has the ability to develop security updates.
- Regression testing across the full stack at the core application/database code level.

### Comprehensive

- Leverage consistent, ongoing, unparalleled innovation.
- Rely on Oracle to deliver integrated support and product updates with a single point of accountability.
