

## Overview and Frequently Asked Questions

### Overview

#### Oracle Buys Textura

Adds Leading Construction Contracts and Payment Management Cloud Services to the Oracle Engineering and Construction Industry Cloud Platform

On April 28, 2016, Oracle announced that it entered into a definitive agreement to acquire Textura, a leading provider of construction contracts and payment management cloud services. The transaction has closed.

Textura's cloud services process \$3.4 billion in payments for over 6,000 projects each month, helping keep projects on time and under budget while reducing risk for developers, contractors and subcontractors. Textura offers its cloud services in a consumption model preferred by the engineering and construction industry whereby the companies involved pay based on project activity. Further, usage of Textura's cloud services creates a network effect that benefits all participants as more than 85,000 general and subcontractors are connected to the platform.

Oracle Primavera offers a complete suite of cloud solutions for project, cost, time and risk management. The Oracle Primavera flagship products have been completely re-architected for the Cloud, and the result is a set of cloud services that are growing rapidly as construction and engineering companies embrace digital transformation. Together, Oracle Primavera and Textura will form the Oracle Engineering and Construction Global Business Unit offering a comprehensive cloud-based project control and execution platform that manages all phases of engineering and construction projects.

### Product Overview and Strategy

#### What is the rationale for this acquisition?

More than ever, engineering and construction businesses are modernizing their organizations to compete more effectively. The combination of Oracle and Textura is expected to accelerate customers' ability to innovate and differentiate their businesses by leveraging Oracle's technologies, cloud solutions, and global reach and scale.

#### What products and services does Textura offer?

Textura is a leading provider of construction contracts and payment management cloud services that increase productivity. Textura's cloud services process \$3.4 billion in payments for over 6,000 projects each month, helping keep projects on time and under budget while reducing risk for developers, contractors, and subcontractors.

#### How does Oracle plan to maintain Textura's domain expertise after the closing?

Textura brings tremendous domain expertise. Oracle Primavera and Textura's management team and employees will form the Oracle Engineering and Construction Global Business Unit, offering a comprehensive cloud-based project control and execution platform that manages all phases of engineering and construction projects.

#### How will the proposed acquisition impact the Textura product roadmap?

Oracle is committed to protecting and enhancing customer investments in Textura solutions. After the close of the transaction, Oracle plans to continue to invest in the Engineering and Construction industry. We expect this will include more functionality and capabilities at a quicker pace. In addition, Textura customers will benefit from better integration and alignment with Oracle's other product offerings.

## Business Continuity

### Can I still purchase Textura products and services?

Yes. Textura products and services continue to be available. Please contact your existing Textura sales representative to assist you, or visit [www.texturacorp.com](http://www.texturacorp.com) for contact information.

### Should Textura customers continue to call Textura customer support?

Yes. Textura customers should continue to use existing Textura contacts for support, professional services and sales to address immediate and ongoing needs. We will communicate all changes and transitions occurring after the close of the transaction well in advance through these familiar channels.

### Will Oracle continue to support and broaden relationships with Textura partners?

Yes. Textura partners should continue to use existing Textura contacts to address immediate and ongoing needs. If contact information changes, we will communicate these changes through normal channels. Oracle partners may also use their existing Oracle channels for support to answer any questions.

### Will training on Textura products and services continue?

Yes. We want to ensure Textura products and services provide the best possible service for their customers, and we know excellent training is critical to reach that goal.

### Where can I find out more information about the proposed Oracle and Textura combination?

For more information, please visit [www.oracle.com/textura](http://www.oracle.com/textura).

#### Cautionary Statement Regarding Forward-Looking Statements

Cautionary Statement Regarding Forward-Looking Statements. This document contains certain forward-looking statements about Oracle and Textura, including statements that involve risks and uncertainties concerning Oracle's acquisition of Textura, anticipated customer benefits and general business outlook. When used in this document, the words "anticipates", "can", "will", "look forward to", "expected" and similar expressions and any other statements that are not historical facts are intended to identify those assertions as forward-looking statements. Any such statement may be influenced by a variety of factors, many of which are beyond the control of Oracle or Textura, that could cause actual outcomes and results to be materially different from those projected, described, expressed or implied in this document due to a number of risks and uncertainties. Potential risks and uncertainties include, among others, the anticipated synergies of the combined companies may not be achieved after closing, the combined operations may not be successfully integrated in a timely manner, if at all, general economic conditions in regions in which either company does business, and the possibility that Oracle or Textura may be adversely affected by other economic, business, and/or competitive factors. Accordingly, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what impact they will have on the results of operations or financial condition of Oracle or Textura.

In addition, please refer to the documents that Oracle and Textura, respectively, file with the U.S. Securities and Exchange Commission (the "SEC") on Forms 10-K, 10-Q and 8-K. These filings identify and address other important factors that could cause Oracle's and Textura's respective operational and other results to differ materially from those contained in the forward-looking statements set forth in this document. You are cautioned to not place undue reliance on forward-looking statements, which speak only as of the date of this document. Neither Oracle nor Textura is under any duty to update any of the information in this document.

Oracle is currently reviewing the existing Textura product roadmap and will be providing guidance to customers in accordance with Oracle's standard product communication policies. Any resulting features and timing of release of such features as determined by Oracle's review of Textura's product roadmap are at the sole discretion of Oracle. All product roadmap information, whether communicated by Textura or by Oracle, does not represent a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decision. It is intended for information purposes only, and may not be incorporated into any contract.
