# Safe harbor

This presentation is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, timing, and pricing of any features or functionality described for Oracle's products may change and remains at the sole discretion of Oracle Corporation.

Statements in this presentation relating to Oracle's future plans, expectations, beliefs, intentions, and prospects are "forward-looking statements" and are subject to material risks and uncertainties. A detailed discussion of these factors and other risks that affect our business is contained in Oracle's Securities and Exchange Commission (SEC) filings, including our most recent reports on Form 10-K and Form 10-Q under the heading "Risk Factors." These filings are available on the SEC's website or on Oracle's website at http://www.oracle.com/investor. All information in this presentation is current as of August 2026 and Oracle undertakes no duty to update any statement in light of new information or future events.

Some regulatory certifications or registrations to products or services referenced herein are held by Cerner Corporation. Cerner Corporation is a wholly owned subsidiary of Oracle. Cerner Corporation is an ONC-certified health IT developer and a registered medical device manufacturer in the United States and other jurisdictions worldwide.

# Clinical suite

## 2026.3.01

**Oracle Health EHR**

**Chart review**
- 'Ask Oracle' access
- Status support
- Patient organizer

**Charting and documentation**
- Supply tracking
- Favorites and recently used

**Inbox management**
- Team inbox and assignments
- Secure messaging
- Change request workflows
- Clinical document architecture (CDA) exchange

**Medication and orders**
- Dispense and administration histories
- Single-phase order sets
- Medical coding for professional fees
- Orders creation

**Oracle Health Foundation EHR**

**Condition management**
- Cloud-based problem list

**Medication and orders**
- Agent suggested Order Sets in Clinical AI Agent Desktop

## 2026.2.01

**Oracle Health EHR**

**Chart review**
- Family history pedigrees
- Risk adjustment factor (RAF) scores
- Chart review

**Charting and documentation**
- Sibling linkage
- Growth charts

**Medication and orders**
- Coding
- Orders creation

**Oracle Health Foundation EHR**

**Chart review**
- Chart review

**Medication and orders**
- Coding

## 2026.1.01

**Oracle Health EHR**

**Chart review**
- Chart review

**Charting and documentation**
- Clinical note
- Nursing

**Medication and orders**
- Coding
- Orders creation

**Oracle Health Foundation EHR**

**Chart review**
- Chart review

**Charting and documentation**
- Emergency medicine clinical note
- Inpatient clinical note
- Smart dictation
- Nursing

**Medication and orders**
- Infusion management application

## 2025.4.01

**Document management**
- Mobile patient eSignature with remote forms
- Multi-select eForms

**Oracle Health Foundation EHR**

**Chart review**
- Provider work email address face-up
- Social, procedure history and microbiology viewer confidentiality
- Microbiology viewer cloud component

**Charting and documentation**
- Efficient usage of dynamic group ops job
- Documentation confidentiality

**Condition management**
- Problem list confidentiality
- Default user selections for "add as" and "search"

**Medication and orders**
- Order confidentiality

# Safe harbor

This presentation is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, timing, and pricing of any features or functionality described for Oracle's products may change and remains at the sole discretion of Oracle Corporation.

Statements in this presentation relating to Oracle's future plans, expectations, beliefs, intentions, and prospects are "forward-looking statements" and are subject to material risks and uncertainties. A detailed discussion of these factors and other risks that affect our business is contained in Oracle's Securities and Exchange Commission (SEC) filings, including our most recent reports on Form 10-K and Form 10-Q under the heading "Risk Factors." These filings are available on the SEC's website or on Oracle's website at http://www.oracle.com/investor. All information in this presentation is current as of August 2026 and Oracle undertakes no duty to update any statement in light of new information or future events.

Some regulatory certifications or registrations to products or services referenced herein are held by Cerner Corporation. Cerner Corporation is a wholly owned subsidiary of Oracle. Cerner Corporation is an ONC-certified health IT developer and a registered medical device manufacturer in the United States and other jurisdictions worldwide.
