Cloud Projects—Phase and Task Structure

This schematic work breakdown structure highlights the phases and tasks for a cloud deployment project.

**Phase**

1. Plan
   - Project Definition
   - Project Team and Talent
   - Project Design
   - Marketing and Communications
   - Project Rollout

2. Implement
   - Configure
   - Integrate
   - Data
   - Extend
   - Reports

3. Verify
   - Data Quality
   - Data Archive
   - Workflows
   - Security
   - Roles
   - Responsibilities

4. Prepare
   - System Readiness
   - User Readiness
   - Organizational Readiness

5. Live
   - Party
   - Reference and Promote
   - Document
   - Monitor and Measure KPIs
   - Plan Next Cloud Project
   - Engage Support and Communities
   - Establish On-Going Training
