JAVA DAY 2014

### **Call-4-Papers!**

The JAVA DAY 2014 **Call-4-Papers** is now open!

Have something interesting to present to the first large-scale gathering of Java developers and community members in Greece since 2008? Innovations implemented with Java? Important projects based on the Java technology that change the way we interact and do business? We want to hear from you, and so do the attendees at Java Day 2014. Submit your proposal now for a chance to share your expertise and experiences.

### ***About the Content***

Please consider the following as inspiration for submissions (the only real limits are your own imagination on anything in the Java EE ecosystem):

- Existing and upcoming Java EE technology JSRs and implementations
- Cool stuff that extends Java EE in new and interesting ways
- Case studies using Java EE 5, Java EE 6 or Java EE 7 (including migration from other technologies)
- Technical Case studies about projects implemented based on Java Technology in the Private and Public Sector
- Academic work based on Java Technology
- Best practices for using Java EE technologies
- Emerging trends in the ecosystem such as mobile, HTML5, caching, complex event processing, modularity, and the like

- Insightful research, development, and analysis work in server-side Java

### ***Complementary information that candidates should consider to provide include:***

- **Session Type\***: Describes the format in which the topic will be delivered:
  - A. JD Session: A 35-minute session presented by Oracle, customers, partners, developers, and/or user group members. We suggest allocating 5 minutes for a Q&A period within that timeframe.
  - B. JD Case Studies: A 20-minute case study presented by Oracle, customers, partners, developers, and/or user group members. We suggest allocating 5 minutes for a Q&A period within that timeframe.
- **Presentation Summary\***: For evaluation only; this is an additional description of your proposal to help the reviewers better understand your submission.
- **Experience Level\***: Identifies the knowledge level of the targeted attendee.

### ***General Tips***

- Session titles should be descriptive of the content and use common keywords. Write an abstract that is easy to read and describes the value of the presentation. An example of a useful title is: *Five techniques to improve your Java server logging*. An example of an uninformative and vague title: *Java GC and You*. Do explicitly discuss what your session is about rather than making a strategy pitch. For example, include specifics about case studies, customer/partner participation, quantitative facts, etc.
- Do not include proprietary or confidential material.
- The submitter is responsible for securing all necessary permissions for use of proposed presentation materials before they are submitted.
- Verify all contact and content information before submitting.

### ***The Submission and Selection Process, and Deadlines***

Candidate speakers are compelled to submit their Papers providing the required information by the **11th of April 2014 (inclusive)**. Candidate Papers will be reviewed and selected by vote by the **JD Session Committee** which is comprised by 2 Oracle Hellas employees, 2 designated members of the Java Hellenic User Group (JHUG) and 2 members of the Greek academic community. The evaluation phase will be completed and the final session frontline will be announced by the **23rd of April 2014 (inclusive)**. Speakers will be required to prepare and deliver their **final draft to the JD committee by the 2nd of May (inclusive)**.

Candidate presentations/papers, inquiries, and requests for further details and information, should be submitted to [marketing\\_gr@oracle.com](mailto:marketing_gr@oracle.com). Please start your message header/title using the "Java Day 2014" string.

## **Program Policies**

### **Content Program Policies**

- Oracle does not reimburse speakers for travel and expenses. Speakers are responsible for any applicable taxes, customs duties, or other expenses related to acceptance of the complimentary pass.
- Do not include proprietary or confidential material. The submitter is responsible for obtaining necessary permission to use all materials.
- Oracle reserves the right to edit session information for clarity, length, and style, and other considerations.
- All deadlines must be met. Any requests received after the deadline may not be approved, and any missed deadlines can result in cancellation of sessions.
- Oracle reserves the right to cancel a session or speaker if necessary.
- In accordance with Oracle's privacy policy, Oracle cannot release information on conference attendees.
- By submitting a session for consideration, you authorize Oracle to promote, publish, display, and disseminate the content submitted to Oracle, including your name and likeness, for use associated with the JAVA DAY 2014 conference, that will take place in Athens, on May 7, 2014.
- Invited speakers will be required to **review and sign the Speaker Consent Form**. A copy of the speaker consent form is provided below.
- Speakers may be asked to attend a general rehearsal at the venue, on the day prior to the event (May 6, 2014)

### **Speaker Consent Form (example)**

*On behalf of myself [and my company/organization], which is designated below ("Organization"), and in consideration of my participation in JAVA DAY 2014, which are scheduled to take place May 7<sup>th</sup>, 2014 in Athens (the "Event"), I grant Oracle (and its designated contractors) and its subsidiaries and affiliates under common control ("Oracle") the following permissions in connection with the Event:*

1. Permission to make sound and visual recordings of any and all presentation(s) I give in relation to the Event ("Presentation") on film, tape, disk, and/or other forms of media, whether in analog or digital format (the "Recordings").

2. Permission to use and distribute my name, voice, biographic material, likeness, and portrait (hereinafter collectively referred to as my "Likeness") in connection with my Presentation or the Recordings, for the purpose of publicizing or promoting my Presentation(s) at/participation in the Event.

3. Permission to use, copy, translate, reformat, edit, broadcast, publish, perform, promote, distribute, digitize, transmit, make derivative works based upon, and/or display all or parts of my Presentation, the Recordings, a transcript of the Recordings, and any presentation materials that I provide to Oracle and use in connection with my Presentation, including without limitation any written speeches, visual aids, or other visual or written materials used, performed, displayed, and/or provided by me in connection with the Presentation (the "Presentation Materials"). This includes, without limitation, the right to make and distribute a DVD, CD, flash memory card, memory stick, PC card, audio tape, video tape, and/or other recording of the Event proceedings that contains the Recordings and Presentation Materials, the right to distribute the Presentation Materials via download from Oracle's affiliated websites, and the right to distribute, display, broadcast, rebroadcast, and reproduce my Presentation, in any and all media existing now or later developed, as part of Event proceedings and archives that Oracle makes available on its website or elsewhere. Any such use must be in connection with the Event or future versions of the Event, and must not be misleading or reflect negatively on my Organization or me.

4. Permission to incorporate the Presentation Materials into the Recordings, in whole or in part.

I understand that neither my Organization nor I will receive any compensation for granting these permissions. Oracle has no obligation to use or record and is not granted any other permissions or rights with respect to my Likeness, my Presentation, the Recordings, or the Presentation Materials. Oracle reserves the right to cancel a session or speaker at the Event if necessary.

I represent and warrant that I have the right to the Presentation and Presentation Materials except any Presentation Materials listed herein, that the publication of this Presentation and Presentation Materials will not infringe on the patent, trademark, copyright rights of others, nor is it slanderous, libelous, or an invasion of any person's right of privacy or publicity. I further represent and warrant that I have full power to grant this license to Oracle. I have read and understand the provisions above, and I (a) confirm that I am the person named in this consent form and (b) grant this permission and agree to the terms and conditions set forth above on behalf of my Organization and myself.
