

Healthcare Payers Adapt to "New Normal" with Modern Finance and HR in the Cloud

Today's healthcare payers are under pressure from regulatory agencies, consumers, employers and governing boards to ensure that patient care is cost effective and high quality.

The "new normal" is:

Industry Consolidation

Shrinking Margins

Continual Regulatory Changes

Legacy Technology Can't Keep Up and It's Costly

IT is the largest cash cost in M&A Integration¹

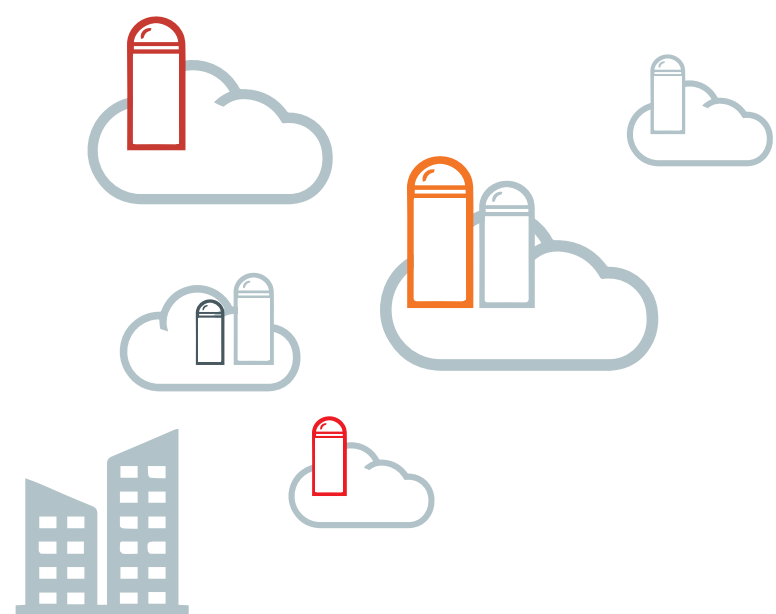

60%

of IT budgets are spent on maintenance²

Cut IT maintenance and less integration

Silos Slow You Down

surveyed said it is important that cloud applications are integrated³

say innovation is hindered due to inability to integrate to existing systems and other clouds³

Modern Finance and HR Addresses Healthcare Payer Challenges

M&A Integration

Easier financial reporting, share services, robust workforce planning

Cost Efficiency

Lower maintenance costs, less integration, better social and mobile collaboration

Business Agility

Built-in finance and talent analytics, social recruiting, faster innovation

Only Oracle Delivers a Unified ERP, HCM, EPM Cloud
