Announcing Extended Commitment to JD Edwards EnterpriseOne 9.2 Customers to at least 2030.

What Are We Announcing?

Oracle previously announced the Continuous Innovation delivery model for JD Edwards EnterpriseOne. With the Continuous Innovation delivery model, Oracle plans to deliver all new functionality to JD Edwards products as updates to the existing release; upgrades are not required to gain access to new features and capabilities. All fixes and updates are cumulative and available to all customers in the most current release. Oracle reassures JD Edwards customers that they can continue to run the current release of JD Edwards applications with ongoing support and enhancements for the foreseeable future.

For more information on Continuous Innovation releases, please visit the [JD Edwards EnterpriseOne Releases](#) page.

Today, Oracle is extending this commitment to JD Edwards EnterpriseOne customers by extending the Premier Support date for EnterpriseOne 9.2 to AT LEAST December 2030. Oracle understands that on-premises applications are important for many customers. Oracle has no intention to end Oracle Premier Support on the continuous innovation release for JD Edwards EnterpriseOne. Oracle will provide support for EnterpriseOne 9.2 through at least 2030 and we are committed to review and update this annually.
